

Annual Symposium

Each year KCMBF hosts the Annual Military Matters Symposium which brings together active Military Matters volunteer attorneys, representatives of veterans support organizations, and other veteran/military experts in the community. Each symposium has focused on a particular veterans topic, with the goal of both education and collaboration between attendees. The purpose of the symposium is to determine if there are additional opportunities for supporting veterans in the Kansas City community.

Below you will find linked each year's Symposium Program, listing session topics and speakers.
